

Guiding Information Package

Welcome to the Hyland Backcountry guided ski touring program for winter 2025. I look forward to spending time in the mountains with you.

Winter goes by faster each year - So organize early to avoid disappointment.

Please read through this package carefully and don't hesitate to get in touch if you need more information.

My Guiding Philosophy:

I've been guiding for almost 25 yrs, and I still appreciate being out in the mountains with people. I have a family with 2 young children, and I have a very strong motivation to come home at the end of each day.

As a Professional Guide I will:

- Guide to the conditions, and I will attempt to manage the risks that we both share accordingly.
- Ensure your objectives and risk tolerance align with mine - If they don't, that's fine, I'll refer you to another guide.
- Take the time to ensure you have basic competence in rescue techniques and processes. We both count on that.

The weather creates a variety of backcountry conditions that I have no control over. Everyone loves to ski powder in sunshine, including me, but it does not magically appear every day. You must be open minded to variable conditions.

If we have never skied together before, please do not ask me on our first day in the mountains together to ski something steep and committing. Developing trust between a client and guide takes time, based on ability, fitness, conditions and above all attitude.

If this makes sense and you respect my philosophy, I'll make sure I work hard to give you an enjoyable day in the hills.
